To Whom it May Concern:

I have worked with Murray Dalfen for a great many years in several capacities. He is a man known for his leadership, integrity, expertise and professionalism in the real estate world. His hard work and dedication has led to his success and that of the Dalfen Group of Companies. His sense of fairness with his partners and investors has gained him a great deal of respect from his clients, vendors and even competitors.

In addition, he has always been generous both with his contributions and commitment to the community. I have nothing but the highest respect and admiration for Murray and I wish him continued success in all his future endeavours.

Yours truly,

A handwritten signature in black ink, appearing to read "Jonathan Wener", written in a cursive style.
